

KCAFP Summer Newsletter

Hello KCAFP Membership! As these hot Kansas City days start to become more numbered and schools start up again, we thought it's time to look back on the fun we've had together so far this year. Please enjoy these pictures of our recent gatherings and come join us at our upcoming events! Winter party anyone?

Kansas City Community Health and Wellness Fair
Together we helped sponsor this community health event at the Kansas City Health Department to serve KC families, children & adults and provide immunizations & sports physicals, needed screenings (diabetes, HTN, & hypercholesterolemia), and empowering health education

AAFP National Conference
We also helped some of the most devoted medical students interested in our field at UMKC and KCU attend the AAFP National Conference in July. The group was thrilled and gained many professional development skills and connections that will last them well into their careers as future family physicians

Kansas City Royals v. LA Dodgers
We wanted to have some Summer Fun together and watch the Royals take on the Dodgers. While it seemed that the Dodgers were taking the Royals on with their 13-3 win we still had a grand time together at Kauffman stadium. It was great to see you all and your kids enjoying a near perfect Kansas City Summer Day. We must have given the Royals some hope as the next day they won 4-0.

JOIN US IN DECEMBER FOR OUR HOLIDAY GATHERING
